GAME PROGRAMMER

josefubaka@gmail.com +46 79-203 03 82 Gothenburg, Sweden

Creative and driven programming student doing the last term before I graduate as a Game Programmer. I have a background in the fashion industry, having worked in retail stores and co-founded a brand. I enjoy working both independently and in teams, and thrive in both. I contribute to my work environment by being positive, calm, and having a clear approach.

SELECTED PROJECTS

Drag Rush

Unity · C# · 8wk · team of 6

Built animation trees for the vehicles. Helped with overhauling our beat conductor for better BPM precision. Also did level design.

Dispater

Unreal · C++ · 8wk · team of 7

Built the systems that drive the story forward, including dialogue, voice lines, tasks, interactions.

Floor Zero

Unreal · UE Blueprint · 5wk · solo

Made a modular interaction interface, together with a key/door system. Built a competent AI using UE's NavMesh.

SwingSpace

Unity · C# · 5wk · solo

First solo project. Built a swing mechanic and hooked up a live global leaderboard with Firebase.

BEYOND THE CODE

Esports

Previously Top 500 in Overwatch, mainly playing Ana support.

Current favorites

Zelda: A Link to the Past, RE9, TLOS 2, and Dead Cells.

Anime

Fan since I was 8, when I found a Dragon Ball at my local library. Some of my favs: Gachiakuta, Chainsaw Man, and JoJo's.

Off the PC

Running, or taking walks in the woods.

Music

Sang, rapped, and produced with a group of friends throughout my teenage years. A part of my life that's close to my heart.
